Karim is a Technology Consultant within Deloitte's Digital Integration practice. Karim particularly focuses on solution delivery, helping clients implement large IT systems. With 3 years of experience in project management, software development & testing, Karim integrates smoothly with teams and brings positive energy.

WORK EXPERIENCE

Deloitte, **Technology Consultant**, Dec 2015 – Present, Toronto, Ontario

Client: **Metrolinx (UP Express)**

- Currently leading the requirements gathering process and technical design reviews prior to releases
- Currently leading the procurement and integration of an ad server, WYSIWYG landing page, and end user survey solutions; the objective is to increase site traffic and conversions

Client: **Janssen: Pharmaceutical Companies of Johnson & Johnson**

- Implemented DevOps/Continuous Integration, resulting in a 40% decrease in release management activities
- Initiated the automated testing project, developing test scripts using Cucumber/Selenium, resulting in a 20% decrease in testing effort
- Participated in bi-weekly sprints, sprint planning etc.

Scotiabank, **Quantitative Developer**, Jan 2014 – Dec 2014, Toronto, Ontario

- Developed a WPF application plotting liquidity provider prices in real-time, analyzed trade execution and spread quality
- Developed a Java Swing application which monitored the trade desks' algorithmic trading engine, positions and risk exposure

Bank of America Merrill Lynch, **QA Analyst**, May – Sep 2013, Toronto, Ontario

- Designed and developed test scripts using the Selenium and the TestNG framework (Java Development)

EDUCATION

BSc. In Management Engineering, Co-op, University of Waterloo

September 2010 – April 2015

- Class Academic Representative – Acted as a liaison between students and professors
